EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Reasons for Examiner's Amendment

The specification has been amended to contain updated information on related applications. The Brief Description of Drawings has been inserted, consistent with the description in the parent application 09/782,554.

3. The application has been amended as follows:

In the Specification,

page 1, before line 1, the following has been inserted:

-- This application is a continuation of Application No. 09/782,554, filed February 13, 2001, U.S. Patent No. 6,713,185, which claims benefit of U.S. Provisional Application 60/182,304, filed 02/14/2000. --;

page 4, after line 6, the following has been inserted:

-- BRIEF DESCRIPTION OF DRAWINGS

Figure 1 and 2 show comparative graphs of extinction angle values. --;

Art Unit: 1773

4. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to specifically disclose or suggest a method of forming cross-laminated polymer films with film portions having different molecular orientation profiles being cut from larger biaxially oriented films prior to layering. Specifically, CANTERINO '971 fails to disclose biaxially oriented films; BENOIT ET AL and PLANETA fail to disclose the cutting or trimming of specific film portions from larger biaxially films prior to layering or lamination.

The double patenting rejections are overcome by the Terminal Disclaimer filed 2/24/2005.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
